COMPLIANCE REGISTER & DEADLINE SPECIFICATION

Developer Requirements — Company Tax & Compliance Management System

Purpose: A starter register of recurring compliance obligations and due-date rules for companies managed by SBC. This is a planning document, not legal advice.

1. Core system requirements

- Company must include location situated (Mainland Tanzania/Zanzibar), authority registration numbers, log in credentials for each institution, tax types enabled, industry, financial year-end and assigned SBC staff.
- Activate only obligations applicable to that company. Do not assume every company must file every tax or levy.
- Store a default due-date rule and a confirmed due date. A date verified in the official tax institution.
- Support public holidays, weekends, authority extensions, amended returns, nil returns, client-specific year ends and changes in law.
- Track filing, Filing is complete either with submission acknowledgement or manually closing by the assigned staff.
